

## **Junior Data Analyst**

**Location: Borough, London**

Competitive salary dependent on experience. Company performance-related bonus, healthcare insurance & wellbeing benefits.

Liv-ex is the global marketplace for the wine trade, with over 550 members worldwide. We offer business services that span trading, data, fulfilment and automation technology to a diverse group of wine businesses – from ambitious start-ups to established merchants.

Our goal is to make fine wine trading more transparent, efficient and safe for the benefit of our members and the market as a whole. We are hard-working and committed yet informal, energetic and action oriented.

Founded in 2000, Liv-ex has grown to serve a growing number of merchant members with a broadening range of services. We help clients and other stakeholders to better understand the fine wine market and identify opportunities to profit.

### **Summary Purpose**

Our data team are looking for Junior Data Analyst to help us produce analysis and insights for all areas of the business to make smarter, data driven decisions. Supervised by the Data Analyst and reporting into the Head of Data, the role combines regular activities and ad-hoc projects around the responsibilities below.

### **Responsibilities:**

- Calculation and updating of Liv-ex Mid Prices and Liv-ex Fine Wine Indices
- Providing wine price valuations for our members and wine investment funds
- Develop and maintain key performance indicators (KPIs) that track our business performance and highlight under or over performance
- Extract, transform and load data from and into Aurora or Redshift
- Handle day to day data requests by various stakeholders
- Prepare reports for internal stakeholders using business analytics reporting tools
- Create data dashboards, graphs and visualisations
- Manipulate, analyse and interpret complex data sets

## Requirements

### *Essential*

- Experience with Excel and SQL
- Strong mathematical and statistical knowledge
- A keen interest and a fascination for the fine wine market
- Good organisational skills and attention to detail
- Ability to work in a constantly evolving environment with minimal guidance
- Driven and hard-working with an informal work manner
- Excellent interpersonal and team working skills
- Analytical, creative, and innovative approach to solving problems
- A passion for overcoming complex challenges with simple solutions
- Be comfortable pushing back and challenging the status quo at all levels within the business
- Ability to handle multiple competing priorities
- Excellent communication skills, both written and verbal
- Fluent in English, both technical and conversational
- Understanding of data, data structures and their value to the business

### *Desirable:*

- Familiarity with analytics tools on Amazon Web Services
- Experience with other programming languages like Python or R
- Other qualifications related to wine or data

To apply, please send a copy of your CV with a cover letter to outline why you are interested in this opportunity to our HR team at [clientresourcing@strattonhr.co.uk](mailto:clientresourcing@strattonhr.co.uk).
